Who are we? Why trust our taste?

Really love this concept. Would prefer to do it without scrolling though. Horizontal is bleh

Should genres just be collections themselves or groupings of collections? Check out Songza and Spotify for slightly different methods to try. What would Pandora do here? Don't do that.

#6p.1

Did you research cast photos at all? What dimensions can you expect? Would it work at this huge size? If it wouldn't, how might you treat the image to "make it work"?

This is delightful as someone who spent years making audio players ;)

Which of these buttons would be less important on mobile? 40-60% of traffic on Console.fm was mobile.
